

Hello Nilesh,

The subtitles will show the selected
If nothing is selected, it will be as here on 'Couleur'

When user clicks on Clear filters, every filters will be cleaned.

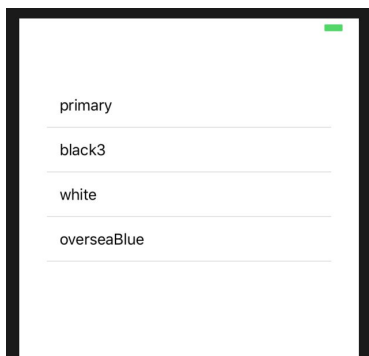

Every filters will be stocked in a reducer in an array through this data model:

```
{  
  type: 'filter',  
  key: 'color',  
  value: 'black3',  
  color: '#55515E',  
}
```

Type 'filter' for Catégorie, Couleur and Taille

Type 'sortBy' for Trier

When a user click on one row, it's opening the corresponding screen:

You will find every things you need in the code

All the design is already done, the routes are already done, you just need to implement the reducers to stock the filters
